

U-15

Utilising a robust 15kW high torque drive system the U-15 can handle a wide range of difficult shredding tasks. With knife sizes ranging from 6mm up to over 31mm available in numerous profile geometries, flexibility is the key to this model's success.

Key Features

- Up to 75% volume reduction
- Economical product waste recycling
- Self-cleaning, counter rotational shafts for continuous shredding
- Flexible feed and discharge arrangements available
- Automatic reversing and overload protection system
- Basic and smart control system options
- Variety of knife and hook options to suit different products and shred size requirements
